## ECHOES FROM THE LODGE ROOMS

**ELKS.**  
The nomination of officers took place at the regular meeting of Norwich lodge of Elks on Thursday evening and resulted as follows: Exalted ruler, John J. Conahan; esteemed leading knight, James E. McCormick; esteemed loyal knight, James H. Harrington; esteemed lecturer, J. W. Canavan; secretary, William R. Halcott; treasurer, M. E. Miller; delegate to Grand Lodge, James Purdon; Rucknatie, James J. Casey; trustee for three years, Nelson J. Ayling. The election of officers will take place at the first meeting in March. Routine business was transacted and three applications for membership were received. Esteemed Leading Knight John J. Conahan presided at the meeting in place of Exalted Ruler James Purdon, who is confined to his home with illness.

**FORESTERS.**  
Court Sachem, F. of A., in spite of the storm on Thursday evening held their regular meeting but with a small attendance. Routine business was transacted and matters that were to have been discussed at the meeting were put over until the next meeting.

**HIBERNIANS.**  
Division No. 1, A. O. H., held their regular meeting on Sunday afternoon with a large number present. Routine business occupied the larger part of the meeting. Three candidates were initiated and several applications were received.

**DAUGHTERS OF VETERANS.**  
Clara Barton tent, No. 7, held their regular meeting Tuesday evening at 7:30 o'clock with a good number present. The meeting was called to order by the president, Mrs. Louise Atterbury. The usual routine of business was transacted and the reports of the committee and treasurer were read and accepted. It was voted to hold a matinee whist and food sale at the Buckingham Memorial on the afternoon of February 11. It was voted to give another old-fashioned dance in Chamber of Commerce hall in March. Comrade Kamps gave a most interesting talk of his early life. The tent closed in the usual manner with singing of American and salute to the flag.

**REBEKAHS.**  
Hope Rebekah lodge, No. 21, I. O. O. F., in spite of the bad weather,

tastes like bottled sunshine. Washington Star.  
Architect—Have you any suggestion for decorating the study, Mr. Quickrich?  
Mr. Quickrich (war profferer)—One that I must be brown. Great thinkers, I believe, are generally found in a brown study.—London Saturday Journal.

The whale had just swallowed Jonah.  
"Well, here's where I get in out of the wet," remarked Jonah, philosophically.

And this occurred centuries before the passing of the Eighteenth Amendment, too.—Philadelphia Record.

**What Is Going On Tonight.**  
Motion Pictures at Reed Theatre, Vaudeville and Motion Pictures at Strand Theatre. Feature Photoplays at the Davis Theatre.

**LIBERTY HILL.**  
Miss Vernon Parker, who has been teaching the local school, has resigned and is teaching in East Hartford. There was no service in church on Sunday last, cold weather and sickness prevented.

Mrs. Winthrop D. Davoll has recovered sufficiently to return to her home here. She was threatened with pneumonia and was taken to Willimantic hospital. At the same time her husband became ill with bronchitis; he is getting better. Their two children were sick with grip but are convalescent. Mrs. Davoll's aunt, Miss Abbie Goodrich, has been nurse and housekeeper for them.

Everett Loomis and two children who have grip are slightly improved. They have a graduate nurse.

Twenty-eight years ago there was a similar run of grip through this section.

Saturday was the coldest so far to date this winter. It was zero at noon Sunday morning it was 14 below and moderated to 21 above by the middle of the day. Since then we have been in a thaw.

Monday, Christmas day, was dark and foggy in the forenoon, but pleasant in the afternoon. The day is observed more generally by the Catholics and Episcopal churches. It is the feast of the Purification of the Blessed Virgin Mary and the feast of the presentation of Christ in the temple and the blessing of candles for the ecclesiastical year takes place. It has been observed for centuries.

Charles E. Goodrich is ill with the grip.

A soft answer has no effect upon a soft person.

**Soviet "Ambassador" To United States**

Ludwig C. A. K. Martins, who claims to be the Soviet "Ambassador" to the United States. After a long search he has been located in Washington and will probably be deported.

**HUMOR OF THE DAY**

"Was Maude honestly glad to see you when you came home?"  
"Glad? Why, when she came rushing to greet me I saw at once she had forgotten to powder her nose."—St. Louis Globe-Democrat.

His Wife — "Get up an' heat them rags. You've done nothin' all day but dose in that chair."  
Newt Neverweat—I know it, but I've been dreamin' I was shovellin' coal an' it's clean done me up.—Houston Post.

It is tough to have a woman turn you down.  
Hard to brook.  
It is tough to make a fruitless tour of town.  
For a cook.  
—St. Louis Courier-Journal.

Recently there appeared in the Muegletown Times the following advertisement:  
"If John Jones, who deserted his wife and babe some 20 years ago, will return, the said babe will knock the stuffing out of him."—Pearson's Weekly.

After all, Bostonians are not much smart folks. One of 'em, writing to the people's forum of a New York newspaper begins her communication like this:  
"Nothing on earth could keep my pen and I apart after, etc."—Indianapolis Star.

"And they call that stuff moonshine!" exclaimed the man who was more inquisitive than wise.  
"That's the name it goes by in these hills."  
"You ought to rechristen it. It

held a well attended meeting on Wednesday evening with Lena Christmann in the chair. Matters of a routine nature occupied the attention of the meeting. At the next meeting the election of delegates to the assembly which is to be held in New Haven will take place.

**ODD FELLOWS.**  
Uncas lodge, No. 11, worked the scarlet degree on a basis of five at their regular meeting on Monday evening. Matters of routine nature were transacted at the meeting at which the order of St. Sylvester carried a decoration consisting of a gold cross with white enamel surface in the center of which is impressed the image of St. Sylvester, surrounded by a blue enamel circle bearing the inscription in letters of gold, "Save Sylvester P. M."  
Word has been received at the New York headquarters of the Knights of Columbus that the French government had decorated William J. Mulligan of Thompsonville, chairman of the Knights of Columbus war activities committee, with the Legion of Honor. The decoration bestowed on the Knights of Columbus men is the medal of public instruction of the republic of France, first class, with palm leaves. The honor is symbolized by a mauve boutonniere. Mr. Mulligan, who has headed the Knights of Columbus war committee for nearly two years, and Messrs. Larkin and Pelletier were recently made knights of St. Gregory by Pope Benedict XV.

**OWLS.**  
With Leroy P. Johnson in the chair Norwich nest of Owls considered matters of routine nature at their regular meeting on Tuesday evening. There was a large number present and plans for the coming season were discussed.

**KNIGHTS OF COLUMBUS.**  
Pope Benedict has conferred the knighthood of the order of St. Sylvester on William Joseph Mulligan of Thompsonville. The order of St. Sylvester carries a decoration consisting of a gold cross with white enamel surface in the center of which is impressed the image of St. Sylvester, surrounded by a blue enamel circle bearing the inscription in letters of gold, "Save Sylvester P. M."  
Word has been received at the New York headquarters of the Knights of Columbus that the French government had decorated William J. Mulligan of Thompsonville, chairman of the Knights of Columbus war activities committee, with the Legion of Honor. The decoration bestowed on the Knights of Columbus men is the medal of public instruction of the republic of France, first class, with palm leaves. The honor is symbolized by a mauve boutonniere. Mr. Mulligan, who has headed the Knights of Columbus war committee for nearly two years, and Messrs. Larkin and Pelletier were recently made knights of St. Gregory by Pope Benedict XV.

**SURPLUS OF 16,000 TONS OF HIGH GRADE STEEL**  
Washington, Feb. 6.—A surplus of 16,000 tons of high grade steel, including a variety of stock used in manufacturing building and bridge and automobile construction, will be placed on the market this month by the navy department at prices "based on the present market quotations." Disposition of the stock, the major portion of which is located at East Coast navy yards, was determined upon the navy department announced today, to relieve the present steel shortage which has been reflected in numerous overtures for purchase from commercial concerns. The sale will be conducted at the navy department February 28.

**Red Tape Citadel**  
"Circumlocution office" is a description used by the great novelist, Charles Dickens, in his book, "Little Dorrit," to ridicule official delays and indirectness. It is described as the chief of "public departments in the art of perceiving how not to do it." The name has come into popular use as a synonym for governmental routine, "red tape," procrastination and delay in transacting public business.

**Bees Distinguish Colors.**  
Experiments have shown that bees distinguish different colors, but different colors acquire significance for bees when the insects have learned that certain colors are associated with certain nutritive advantages. The bees are not "reflex-machines"—they are not compelled by any organic chromotropism to prefer certain colors to others. They accumulate experience and remember that certain colors are associated with certain nutritive benefits.

**Proof of Biblical Truth.**  
Perhaps the most impressive fact of record concerning disease in ancient times is found in the Bible, in the First Book of Samuel, where we are told that the land where the Philistines were overrun with a plague of rats or mice and that thereupon the people were smitten with bubonic plague to punish them for their seizure of the Ark of the Covenant. Thousands of years later our modern science discovered that rats are the chief disseminators of that pestilence. —New York Herald.

**Laissez-Faire.**  
Laissez-faire means letting alone; a general noninterference with individual freedom of action; the let-alone principle of policy of the government and political economy. The term was first used in France to designate the principle of political economy which would leave industry and trade absolutely free from taxation and restriction by government except so far as required by public peace and order. It has since been extended to include noninterference with any guiltless exercise of the individual will.

**Budgeons for Blockheads.**  
A word to the wise—a clasp to the otherwise.—Boston Transcript.

**To Guard Against Influenza.**  
Don't let the dread influenza get you. If you have even the slightest cough or cold, better begin using Foley's Honey and Tar at once. Henry Willis, Sandy Point, Texas, one of many thousands who consider this remedy "just fine." He says: "I suffered several times with bad coughs. After using four or five dollars worth of different medicines decided to try Foley's Honey and Tar. One bottle gave relief. Best medicine I ever used. Contains no opiates. Lee & Osgood Co."

## MUSTEROLE—QUICK RELIEF! NO BLISTER!

It Soothes and Relieves Like a Mustard Plaster Without the Burn or Sting

Musterole is a clean, white ointment, made with the oil of mustard. It does all the work of the old-fashioned mustard plaster—does it better and does not blister. You do not have to rub it on—and usually the pain is gone! Many doctors and nurses use Musterole and recommend it to their patients. They will gladly tell you what relief it gives from sore throat, bronchitis, croup, stiff neck, asthma, neuralgia, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frost-bitten feet, colds of the chest (it often prevents pneumonia). 30c and 60c jars; hospital size \$2.50.

ADMISSION 25c.

Two Fatalities.  
The freight train caused the explosion by hitting a truck loaded with acetylene tanks. The truck and driver was killed.—Buffalo News.

That's the Question.  
"I bought one of those fountain pens I was telling you about today. The price has come down." "But will the ink come down?"—Boston Transcript.

**Noted Scientist Honored By National Geographic Society**

Edward W. Nelson, chief of the United States biological survey, in recognition of eminent services "for the increase and diffusion of geographic knowledge" has been awarded a life membership in the National Geographic Society. Mr. Nelson has contributed notably to the information concerning animal life of North America. He conducted scientific explorations in Alaska forty years ago and more recently examined the zoology and botany of Mexico.

## KALEIDOSCOPE

One Newark saloon keeper is removing his entire establishment, including the bar and fixtures, to Havana.

An electric attachment has been invented for bottle cap openers used in public places to sound a bell as an alarm if an unauthorized person opens a bottle.

Heating naphthalene under pressure in the presence of aluminum chloride European scientists claim to have produced an oil that can be used as an illuminant.

An inventor has mounted a wheel on the end of a cane intended to be used by blind persons to guide themselves about streets without tapping on pavements.

A Swedish railroad has built a reinforced concrete bridge with an arched span nearly 200 feet long designed to carry trains at a speed of 60 miles an hour.

In Pittsfield one man was picked up bodily by the wind and carried to

the middle of the street, and another man's hat was blown as high as the top of a three-story building.

An odd and highly remunerative employment is that of those men and women who make a business of inventing cable codes for large financial houses and merchants dealing in overseas trade.

In comparison with Great Britain, coal production in Ireland is on an insignificant scale, amounting to 96,000 tons in 1917 for Ireland, while that for England and Wales came to 214,157,856 tons, and Scotland to 34,245,744 tons.

For many years Winnipeg has been noted as a bicycle center. This may be attributed largely to the many miles of paved level streets and the great distances to be covered, the population of 225,000 being spread out over an area of 24 square miles. Practically all of the 500 miles of city streets are paved.

The present Czechoslovakia includes within its boundaries the former Austrian crown lands of Bo-

hemia and Moravia, Slovakia, and a small strip of territory inhabited by Pod-Carpathian Russians, which, with Slovakia, formerly belonged to Hungary. The so-called Teutonic region in Silesia may or may not be included in Czechoslovakia as a result of the plebiscite which is to be made.
